

TESSERACT – BRAND, VISION & DESIGN DOCUMENT

1. CLUB VISION

Who We Are

Tesseract is a student-driven community within the IIT Madras BS program designed to bring people together beyond academics.

It is not just a club — it is a space where students can interact, relax, explore creativity, and build meaningful connections.

Our Vision

In a program heavily focused on data science, coding, and academics, students often lack spaces for casual interaction, creativity, and relaxation.

Tesseract exists to bridge this gap.

Our vision is to build a **one-stop interactive ecosystem** where IITM BS students can:

- Interact freely with peers
 - Take a break from academic pressure
 - Engage in fun and creative activities
 - Build strong personal and professional connections
-

What Tesseract Offers

Interactive Fun & Games

- Mini-games (riddles, puzzles, brain teasers)
- Casual multiplayer games (Scribbl, Smash Kart, etc.)
- Esports competitions

Social Interaction

- Open chats and discussions

- Chill conversations and group activities
- Informal engagement spaces

Events & Engagement

- Movie nights
- Play nights
- Fun challenges and community events

Support

- Peer discussions
- Knowledge sharing

Networking & Connections

- Meet new people across batches
- Build friendships
- Create strong networks

Core Philosophy

Tesseract is built on balance:

- Fun + Engagement
- Creativity + Interaction
- Community + Experience

It is not overly serious, and not chaotic — but a structured, engaging environment.

Final Thought

In a world full of deadlines and assignments,

Tesseract is where students come to relax, play, connect, and belong.

2. BRAND IDENTITY

Brand Personality

- Fun but premium
 - Creative but structured
 - Interactive and engaging
 - Youthful
-

Platform Identity

- Type: Gamified community platform
 - Audience: IITM BS students
 - Tone: Friendly, energetic, non-formal
-

3. LOGO USAGE

- Use the provided Tesseract logo as primary identity
 - Prefer dark background for maximum contrast
 - Maintain gradient integrity (do not recolor randomly)
-

4. COLOR SYSTEM *(Mainly Inspired from the Logo)*

Primary Theme

- Background: (Deep Black)

Gradient Palette (from logo)

- Red
- Yellow
- Green
- Blue
- Purple

Usage Guidelines

- Use gradients for highlights
 - Avoid flat colors for primary elements
 - Maintain high contrast for readability
-

5. TYPOGRAPHY

Heading Fonts

- Orbitron / Audiowide / Exo (futuristic feel)

Body Fonts

- Inter / Poppins (clean and readable)

Guidelines

- Avoid generic fonts like Times New Roman
 - Maintain consistency across pages
 - Funky Designs
-

6. UI/UX DIRECTION

Overall Style

- Dark mode dominant
- Neon / gradient accents
- Gaming-inspired interface

Key Elements

- Glassmorphism cards
- Gradient buttons
- Glow effects
- Micro-interactions

Interaction Design

- Smooth transitions
 - Hover animations
 - Responsive feedback
-

7. WEBSITE FEEL

The platform should feel:

- Creative
- Funky
- Slightly playful
- Not corporate
- Not boring

This is NOT a traditional college website.

It should feel like a **product / experience platform**.

10. FUTURE VISION *(possibly)*

- Game Leaderboards
 - User profiles
 - Gamification (points, badges)
 - Real-time interactions
-

"Don't build pages. Build an experience."

Tesseract should feel like a platform users WANT to explore, not just visit.
